**About Leandro's position:**  
**Software Engineer I**

**Duration:**  
**3<sup>rd</sup> August 2021**  
**- 28<sup>th</sup> September 2022**

## RECOMMENDATION

I here assure that Leandro Parisi was part of a team in XPInc which was responsible for building a Crypto Exchange.

Leandro was one of the first members of the team, and has worked with us from **3<sup>rd</sup> August 2021** until **28<sup>th</sup> September 2022**.

Leandro is a professional with a lot of energy and passion. His presence is contagious and his curiosity is instigating.

Always opened to new challenges, Leandro is not afraid to take risks and strive to find the best solution to a problem. In our experience working together at XPInc, he proved to be an engineer with a quick immersion capacity and ample resourcefulness in the development of complex applications that required a refined level of technical maturity.

Working with him was very satisfying and I hope we will meet again on other occasions in the future!
