PROFILE

I'm a member of the Millennial generation, one who believes that the internet gives us new possibilities to improve society and our relationships.

As my first big effort to take part in a big change in the world I created PianoBike, the 1º Brazilian piano on wheels, with which I bring good music all around my country, from small cities to big capitals.

In 2020, taking on my natural aptitude to logic and mathematics I've begun my journey as a DEV, because I believe it's a great tool to create a better world not just for me but also for the next generations.

EXPERIENCE

Creator and Manager

2018 - current

PianoBike

Working as Production Director, organizing events and leading the team.
Taking also, the role of commercial manager, negotiating contracts and deals.

Music Teacher

2012 - current

Private teacher and teaching on several schools

Applying an active learning methodology I work as a music teacher since young age.
Encouraging my students to search for knowledge actively and teaching not just how to play an instrument but also to understand deep musical concepts and theory.

General Manager

2016 - 2018

O Quintal Orgânico

Manager at an online supermarket.

Leading a team of 4 people and managing the full client experience cycle, including supply chain management, client satisfaction and logistics.

VOLUNTEERING

Education Coordinator

2012 - 2015

CISV International

Volunteer on education program which educates children and youth around the world to build peace and understanding.

- Mediator of educational activities with children from 8 to 15 years old;
- Head of a team of 5 other volunteers to plan and organize activities and experiences for the participants.
