PROFILE

I identify a problem, I solve it, not just tech ones.
That's how I built a successful career on my previous area, like I'm doing so on tech.
Any doubts?? Just google: Leandro Parisi PianoBike.

I am a member of the Millennial generation, one who believes that the internet gives us new possibilities to improve society and our relationships.
I have always struggled towards helping other with fairness in my life. On my previous carrer, unfortunatelly many people I worked with didn´t have the same values as me. And I am really glad because I realize that, on tech, there are lots of companies and people who think like me and are trying to really help society, people who know that, although money is an important part of our life, it is not everything.

EXPERIENCE

Software Engineer I

2021- current

XP inc

Full stack developer, working on a team designated to build a Crypto Currency exchange plataform from scratch. Stacks: JS, React, .NET, C#. Taking architectural decisions and helping new members onBoarding process. Main contribution: Created a system that solves the same problem which Kafka´s Schema Registry did, but with low to no cost.

Founder and tech lead

2021 - current

TaOn - sales automation

Created architecture of the whole system, determining technologies and overall structure.
Helping other developers with their tasks and technical doubts.
Coded core system.

JavaScript Developer

2020 - 2021

Nata.house

Full stack developer at a software house. Working with many stacks and roles (front / back).
Main contribuitions: Head of a big refactor on one of the projects, bringing more organization and efficiency to it. Also contributing to the overall organization of my squad and team goals.

Front end Developer (JS/ HTML / CSS)

2018 - 2020

Freelancer

Building simples websites for small bussinesses, using basic web package with vanilla JS.

VOLUNTEERING

Education Coordinator

2012 - 2015

CISV International

Volunteer on education program which educates children and youth around the world to build peace and understanding..
